

Rare. And well-done.

The Morgan Roadster returns. With only 82 masterfully crafted models available for import.

In the case of the new Morgan Roadster, opposites don't merely attract. They become supremely attractive. This British classic pairs the hand-assembled craftsmanship of a bygone era with the advanced design dynamics that have made the Morgan marque legendary. So you experience a ride that's relaxing yet exhilarating. Regal yet revolutionary. With this in mind, you are encouraged to place your order soon because, regrettably, another opposite is at play. The car that offers so much is not offered for very long. Contact Auto Europe today.

God thank the Queen.

MORGAN MOTOR COMPANY

DRIVEN AT HEART

Reintroducing the Morgan Roadster... the classic British sports car returns.

A British beauty has returned to the road, just as tantalizing to the eye and even more so to the driving soul. The storied Morgan Roadster retains its richly crafted styling and elegance while reinvigorating itself with expanded power, livelier response, and nimbler handling. So while you may indeed want to thank the queen, you should refrain from letting her get in front of you in line. Only 82 custom-built Roadsters are available to North America for a limited time. Contact Auto Europe at (248) 645.6300 regarding availability.
